

Pilot projects

Preliminary assessments

Definition

Objectives

- Feedback from organisations on the implementation experience
- Feedback on specific needs of smaller/less complex organisations
- AMC/GM appropriate or not and alternatives put in place
- Synergies between SMS and ISMS
- Exchange views on training needs

- Gain experience to enhance supporting guidance material
- Foster Inspectors' training and competence
- Identify gaps with other applicable regulation
- Diagnose coordination needs with other Authorities, entities or third parties

Voluntary projects

Mature organisations
already implementing
SMS/ISMS

Experience gained could
be shared with other
entities
